

## Savant SmartView Video Tiling Solution

Introducing Savant SmartView technology, with up to nine HD video sources, SmartView is the perfect solution for business, entertainment and security.

Control and personalize the viewing experience through the power of Savant's TrueControl™ iPad® app.

NOW YOU CAN

# The Ultimate Viewing Experience

Get more out of your display with Savant SmartView technology. Check the scores of multiple games, watch the weekend forecast, follow Wall Street and see who's at the door, all this and more without disrupting the kids movie. SmartView takes your personal viewing experience a step above the rest.

## Complete Customization

With the capability to switch up to twenty-four media sources, from one to nine windows, game day, fight night or an everyday evening inside has never looked this good.

Personalize your view, save it as a favorite preset for convenient access. An unlimited number of presets may be created which include your selected media sources, channels, screen layout, audio source and volume level.

Savant SmartView allows for various screen layouts. See samples below.

## Use Apple® Gestures to Control & Customize

Savant SmartView is powered by TrueControl™, Savant's control app, for iPad®, iPad mini®, iPhone® or iPod touch®. Customize your viewing experience in real-time by utilizing familiar Apple gestures to expand, contract, and position your screens. Savant SmartView is controlled via iPad only.

### Expand & Contract

A two-finger pinch or contract motion will re-size the pane.

### Single Tap

Single tap any pane to select and change media source.

### Double Tap

Double tap any pane to expand it to full screen viewing.

### Tap & Drag

A tap and drag will reposition the selected pane.

# Savant SmartView Takes Your Business to the Next Level.

Savant SmartView delivers an unmatched multi-view solution to meet the demands of today's corporate environment. This multiple window display allows you to view a presentation, plus multiple video conferencing sources and more, all on one screen.

Leveraging Savant's user experience expertise, our NEW SmartView technology simplifies collaboration and communication in every meeting with a single touch.

- ▼ Switch up to twenty-four media sources from one to nine windows in various layouts per display.
- ▼ Create, save and recall multiple presets for the most efficient meeting setups. You will instantly have access to sources, preferred screen layout, audio source and volume level.

## Use Savant SmartView in:

- ▼ Board Rooms/Meeting Rooms
- ▼ Home Theaters
